

UPS SOLUTIONS - SURGE PROTECTION - PDU AND RACK ENCLOSURES  
DIRECT STRIKE LIGHTNING PROTECTION - PROJECT SERVICES

**OUR MISSION IS TO IDENTIFY, SOLVE AND IMPLEMENT SOLUTIONS FOR OUR CUSTOMERS TO PROTECT THEIR BUSINESS FROM POWER PROBLEMS. OUR AIM IS TO BE THE LEADING PROVIDER OF QUALITY POWER PROTECTION PRODUCTS AND SERVICES TO THE CORPORATE, INDUSTRIAL, EDUCATION AND PUBLIC SECTORS IN AUSTRALIA.**

NPS (Natural Power Solutions) is a leading independent power quality and lightning protection company. NPS provides power protection solutions to key clients in the corporate, industrial and government sectors.

Established in 1994, NPS has offices throughout Australia and is both a distributor and manufacturer of leading edge power protection products as well as offering consulting and advisory services.

Power and surge protection is the company's sole focus.

NPS provides qualified technical expertise with the ability to solve most power related problems. As a power protection specialist and with the

development of our project services group, NPS is well placed to build and install customised solutions while its national footprint delivers on-site support and face-face consultation and client advice.

NPS' independent status gives us the ability to choose the best and most appropriate products for the dynamically changing needs of IT systems, electrical and industrial equipment.

NPS aims to build upon their expertise and to develop a broader based end to end energy solution.

### UPS SOLUTIONS

A UPS (Uninterruptible Power Supply) is designed to keep your computer system or electrical equipment running during a mains power failure. NPS provides a wide range of products to ensure continuous power to your systems.

In conjunction with the UPS systems NPS is able to implement PDU & Rack Enclosures for a data centre environment.

### SURGE PROTECTION

A surge is a transient electrical fluctuation that happens in a fraction of a second and can cause serious damage to electronic and electro mechanical equipment. NPS provides a wide range of surge protection products to combat this threat.

### DIRECT STRIKE LIGHTNING PROTECTION

A direct "LIGHTNING" strike occurs when lightning directly hits a structure or a cable attached to a structure. NPS is able to install a direct lightning strike protection system for all applications.

### PROJECT SERVICES

Natural Power Solutions (NPS) is a provider of complete turnkey power solutions throughout Australasia. NPS can develop and assist in the planning and installation of your power system. We can provide onsite positioning and associated electrical works.

NPS is able to assess your energy footprint and reduce your power expenditure.

### MANAGEMENT SOFTWARE AND CONNECTIVITY

The management of UPS, DC systems and other power systems is essential for remote and global management. NPS provide a wide range of connectivity cards and associated software to manage your systems during a power outage.

This is important for the management of national infrastructure and data centre continuity.

### OTHER POWER SOLUTIONS

Other "Power Solutions" that are offered include generators, power conditioners, solar power and DC / rectifiers systems which may form part of a turnkey Solution.
